Subject: Microsoft Settlement

Dear Sir or Madam-

I would like to protest your proposed settlement with Microsoft of the antitrust case.

After going over coverage of the proposed settlement, it would appear at best that there are no teeth in the proposal.

Just what do you intend to do to Microsoft if it does not adhere to the settlement? Indeed, how can you even tell if they are not adhering to the settlement? What activities does the settlement bar that are not allowed in some other part of the settlement?

Do not allow this settlement to go through. Allowing any one company a stranglehold on a key market, such as computers, is NOT in the public interest.

-Edward K. Smallwood
